

Provision of Material Aid and Support Services to Assist Asylum Seekers

Project Reference: AMIF.S01.02

The Material Aid Project, led by the Agency for the Welfare of Asylum Seekers (AWAS), is a cornerstone of support for individuals facing hardship. Its mission is clear: to uplift asylum seekers and vulnerable populations by meeting their most pressing needs and fostering their overall well-being.

Backed by funding from the Asylum, Migration and Integration Fund (AMIF), this initiative is central to the services provided across Malta's open centres, including Hal Far Tent Village (HTV), Hangar Open Centre (HOC), Family Open Centre (HFO), and Dar il-Liedna (DIL). Through this project, residents receive a comprehensive range of support, from medical care by skilled health professionals and nutritious meals to daily allowances and personalized assistance tailored to each individual's circumstances. The goal extends beyond basic provision; it seeks to uphold the dignity, health, and stability of every person involved.

With a robust budget of €14,281,511.33 million, the success of the Material Aid Project reflects the unwavering dedication of AWAS staff, volunteers, and community partners. Their efforts in coordinating logistics, managing distributions, and following up with recipients ensure the programme remains responsive and impactful. By staying closely attuned to the voices and needs of beneficiaries, the project evolves continuously to serve its community even more effectively.

AWAS remains steadfast in its vision to create long-lasting, sustainable support systems that empower individuals and reinforce community resilience. The Material Aid Project stands as a powerful testament to this vision, delivering essential aid where it's needed most and building a foundation for a more inclusive and compassionate society.
